Assumptions:

- The ‘Seats’ can be identified without the ‘Zone’, as seen in question 9 of the business requirements.
- Fans go through the ‘Waitlist Entry’ if it is a waitlist event.
- There is only one of each zone type in each event (e.g. there cannot be two VIP zones).
- A ‘Fan’ cannot buy more than 6 tickets.
- A ‘Fan’ has a unique ‘FanID’.
- Each ‘Waitlist Entry’ has its own entry number.
- The ‘StaffID’ is relative to the ‘Employer’, not the ‘Event’.
