INFO20003: Database Systems

Lecturer: Egemen Tanin

Lecture 23

Wrap Up and Review

Week 12

First: Final Exam Logistics

- Exam is 3 hours, i.e., writing time, all answers will be entered online
- Hence, it will be a digital exam, no other material will be marked such as handwritten notes etc
- Reading time is 15 minutes
- Exam is open book, you can bring
  - Any books, or printouts from books - more does not mean better!
  - Any other printed or handwritten material such as lecture notes
  - Formulas, tutorial notes etc printed are also fine
  - Nonprogrammable calculator are allowed
    - Official University approved calculator only - Casio FX-82
  - You can bring hardcopy English or Translation dictionaries
  - Scrap paper will be available during the exam and will be collected and destroyed after the exam, they will not be marked
  - BUT Nothing replaces good study!

Final Exam

- Exam itself is of type LMS Classic Quiz
  - Familiarise yourself with the on-campus digital exams https://students.unimelb.edu.au/your-course/manage-your-course/exams-assessments-and-results/exams/on-campus-digital
  - Focus on the particular type of exam not other types!

- Exam time and venue is available from your portals
  - We cannot announce this information legally as lecturers

- Yes, the exam is in Melbourne in a venue and invigilated by staff
  - There is a physical exam venue you go to, do not try the exam somewhere else!

- You will need software to take the exam, i.e. a special browser as mentioned in digital exams page, thus do read the digital exams webpage and prepare well beforehand!

© University of Melbourne

Final Exam

- You will need to bring your laptop for the exam
  - There is a checklist of things to note and prepare before the exam on this front as mentioned in digital exams page which is listed in the previous slide
- If you do not have a laptop that meets exam requirements, borrow a laptop from the Uni as mentioned in the digital exams webpage
- Exam worths 60% of your final total mark
  - Hurdles apply as mentioned during the beginning of the semester
- All content is examinable
  - Note that this does not mean coverage and type of questions will be uniformly spread across topics e.g., certain topics we covered in more detail/time need more attention!
  - Tutorial questions and other practice questions you were given during the semester is a good indicator for the type of questions you will get
- You need to rehearse academic integrity regulations as well, as discussed/linked in our LMS pages earlier

Final Exam

- Make sure to read the exam paper with the instructions carefully on the day of the exam, as many students loose many points because of incomplete/inaccurate reading of questions and/or exam instructions
- We will put all this info as an announcement on LMS as well, and with more details/links - you need to read that announcement carefully beforehand to make sure you understand all the expectations well
- You are welcome to post questions on Ed till the exam day as we will monitor Ed after the lectures end
- Make sure to check announcements in LMS too in case we post announcements related to the exam etc
